Gulbarga University, Kalaburagi

Subject: Submission of Feedback about Curriculum

Respected Sir,

As part of the quality assurance initiative, IQAC obtains feedback on the curriculum, teaching-learning process, and the ambiance of the teaching-learning facilities from various stakeholders such as Students, Teachers, Alumni, and Employers for the improvement of the curriculum delivery and development process. We have carried out a systematic analysis of the feedback obtained from various stakeholders and would like to present the following highlights for the future curriculum development and revision process of the University.

Arts and Humanities programs should be accompanied by Basic IT Skill courses. Commerce-related programs should offer a few specializations such as Digital Marketing, Finance and Accounting, and Computer Applications. More open elective options need to be provided to encourage interdepartmental and interdisciplinary learning across all branches of Arts and Commerce. Some locally need-based courses, fieldwork, or University-approved add-on programs should be introduced across all programs based on the theme of community-based learning. Additionally, an Industry Internship of 6 months should be made compulsory for courses like BA, B Com, students should have access to a couple of specializations based on open electives and in-demand skills in the current market.

I hope these points will be useful, and you will consider them for the future curriculum delivery process.

Yours Faithfully,

  
PRINCIPAL
